Rules and Regulations !!

- Entries are restricted to Indian female citizens of all ages.
- Single entries per person.
- **Nightscapes** should have basic elements of night sky as well as natural landscapes/structures. **Deep sky** images should make Nebula, star clusters, galaxies etc. as elements. **Milky way photography** – Being the milky way season, a wide range of scope is available for this topic.
- All photographs must be taken in the year 2021 (from 31st Dec, 2020 midnight).
- Composite images are not allowed however stacked images are permitted.
- Details of equipment used, processing workflow, number of light/dark/bias/offset frames etc., location and date of photography along with a 'Story' behind the photo (200 word limit) to be provided along with the submission.
- Image size within 15MB and in JPEG format with no water marks.
- Shortlisted submissions maybe requested to provide at least one unedited/ raw light frame/image from the camera/mobile. A copyright transfer agreement would be requested from the participants at the time of submission.

Rush Your Entries on or before 5th October 21- Midnight

Post your queries to Kiran Mohan - 9995116424 - email: wsocosmiceye21@gmail.com
